**RE: National Emission Standards for Hazardous Air Pollutants: Stationary Reciprocating Internal Combustion Engines;
Initial Notification Pursuant to 40 CFR Part 63.6645
ConocoPhillips Trainer Refinery**

Dear Mr. Rebarchak:

On March 3, 2010, the U.S. Environmental Protection Agency (EPA) promulgated the National Emission Standards for Hazardous Air Pollutants: Stationary Reciprocating Internal Combustion Engines, which is codified in 40 CFR Part 63, Subpart ZZZZ and was effective on its promulgation date. Pursuant to 40 CFR Part 63.6645, the owner of an existing affected source is required to submit an initial notification not later than 120 calendar days after May 3, 2010. This serves as the initial notification for the ConocoPhillips Trainer facility located in Trainer, Pennsylvania and provides the information specified in 40 CFR Part 63.9(b)(2) as follows:

1. Name and address of the owner or operator:

ConocoPhillips Company
Trainer Refinery
4101 Post Road
Trainer, PA 19061

2. The address (i.e., physical location) of the affected source:

4101 Post Road
Trainer, PA 19601

3. The identification of the relevant standard that is the basis of this notification:

National Emission Standards for Hazardous Air Pollutants: Stationary Reciprocating Internal Combustion Engines (40 CFR Part 63, Subpart ZZZZ, compliance date May 3, 2013 for existing sources.

RECEIVED

AUG 30 2010

3AP20

4. A brief description of the nature, size, design and method of operation of the source and an identification of the types of emission points within the affected source subject to the relevant standard and types of hazardous air pollutants (HAPs) emitted:

The refinery operates a 40 CFR Part 63, Subpart ZZZZ affected source that consists of a new stationary reciprocating internal combustion engine (RICE) that exclusively operates as an emergency RICE. The brake horsepower of this RICE is 563, which means per 40 CFR 63.6590(b)(1)(i) this RICE is not subject to Subparts A or ZZZZ except for the initial notification requirement in §63.6645(f).

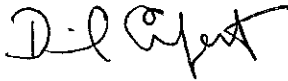

5. A statement of whether the affected source is a major source or an area source:

The ConocoPhillips Trainer facility is a major source of HAPs.

Based upon information and belief formed after a reasonable inquiry, I, as a responsible official of the above-mentioned facility, certify the information contained in this report is accurate and true to the best of my knowledge.

If you have any questions regarding this notification, please contact James Wallwork at (610) 364-8433.

Very truly yours,

David P. Erfert
